Veterinary certificate for the export of swine semen from Switzerland to Kenya

Part I: Details of dispatched consignment	I.1. Consignor: Name:		I.2. Certificate reference number*:		
	Address:		I.3.a. Central competent authority: Federal Food Safety and Veterinary Office FSVO		
			I.3.b. Cantonal competent authority:		
	I.4. Consignee Name:		I.5. Country of origin: Switzerland ISO Code: CH		
	Address:		I.6. Country of destination: ISO Code:		
			I.7. Zone or compartment of destination ⁽¹⁾ :		
	I.8. Place of origin: Name:		I.9. Place of loading:		
	Address:		I.10. Date of departure:		
	Approval number of establishment(s):		I.11. Expected border post:		
	I.12. Means of transport: Aeroplane <input type="checkbox"/> Ship <input type="checkbox"/> Railway wagon <input type="checkbox"/> Road vehicle <input type="checkbox"/> Other <input type="checkbox"/> Identification: Documentation references:		I.13. Temperature of the product: Ambient <input type="checkbox"/> Chilled <input type="checkbox"/> Frozen <input type="checkbox"/>		
I.15. Commodities intended for use as: Technical use <input type="checkbox"/> Other <input type="checkbox"/>		I.14. Identification of container/seal number ⁽¹⁾ :			
		I.16. Total quantity:			
		I.17. Total number of packages:			
I.18. Identification of the commodities ⁽²⁾ :					
Species (scientific name)	Breed	Boar name	Donor identification	Date(s) of semen collection	Number of semen doses

⁽¹⁾ If applicable

⁽²⁾ If necessary, extra tables can be attached as annex by the consignor and should be approved and stamped by the Cantonal Competent Authority

Switzerland		Porcine semen
II. Sanitary information		Certificate reference number*:
Part II: Sanitary information	I, the undersigned certifying officer, hereby confirm the following conditions:	
	<p>II.1 Conditions for the semen collection center</p> <p>The semen collection center is officially approved for trade in semen of domestic animals of the porcine species in concordance with the EU Directive 90/429/EEC and under official veterinary control.</p>	
	<p>II.2 Conditions for the donor animals</p> <p>a) Aujeszky's disease (AD)</p> <p>Switzerland is officially declared free of AD by the European Union in accordance with the agreement of June 21st 1999 and a risk based random sampling surveillance program is carried out since 2001, therefore no testing of semen donors is necessary.</p> <p>All donor animals were free of clinical signs of AD on the day of semen collection.</p> <p>b) African swine fever (ASF)</p> <p>Switzerland declares itself officially free from ASF (no case ever occurred, free in accordance with the WOAHP Terrestrial Code). All donor animals were born and raised in Switzerland, therefore no testing of semen donors is necessary.</p> <p>All donor animals were free of clinical signs of ASF on the day of semen collection.</p> <p>c) Classical Swine fever (CSF)</p> <p>Switzerland is declared officially free from CSF by the WOAHP since 2015 and the last cases occurred in 1993 (domestic pigs) and 1999 (wild boar) respectively, therefore no testing of semen donors is necessary.</p> <p>All donor animals were free of clinical signs of CSF on the day of semen collection.</p> <p>d) Porcine brucellosis</p> <p>All donor animals showed no clinical signs of infection with Brucella on the day of semen collection.</p> <p>None of the donor animals were vaccinated against an infection of Brucella and all were kept in the approved AI station where the semen was collected and processed.</p> <p>e) Swine Vesicular Disease (SVD)</p> <p>Switzerland declares itself officially free from SVD (in accordance with the WOAHP Terrestrial code; disease eradicated since 1974), therefore no testing of semen donors is necessary.</p> <p>All donor animals were born and raised in Switzerland and were free of clinical signs of SVD on the day of semen collection.</p> <p>f) Transmissible gastroenteritis (TGE)</p> <p>All donor animals were free of clinical signs of TGE on the day of semen collection.</p> <p>All donor animals were born and raised in Switzerland and no clinical case has been recorded in the past three years.</p>	
<p>II.3 Conditions for the semen collection</p> <p>The semen was collected, processed and stored in conformity with the provisions of Chapters 4.6 and 4.7 of the WOAHP Terrestrial Animal Health Code</p>
