Lettre d'information n° 153: Encres d'emballage, future révision des listes de l'annexe 6

Mesdames, Messieurs,

La nouvelle réglementation sur les encres d'emballage dans l'ordonnance sur les objets et matériaux (RS 817.023.21) est entrée en vigueur le 1er avril 2010. A partir de cette date, les encres d'emballage ne peuvent être fabriquées qu'à partir des substances mentionnées aux annexes 1 (listes I et II) et 6 (Listes I à V) dans les conditions qui y sont fixées. L'industrie des encres a cependant toujours la possibilité d'annoncer de nouvelles substances selon le processus défini à l'art. 26h de l'ordonnance.

Les listes I et II de l'annexe 1 comprennent les substances utilisées pour la fabrication des matières plastiques. L'annexe 6 est spécifique aux encres d'emballage et est disponible sous forme électronique sur le site de l'OFSP à l'adresse suivante: www.bag.admin.ch/encres_emballage

L'annexe 6 qui comprend les substances utilisées lors de la fabrication des encres d'emballage a été divisée en 5 listes:

- I Liste des liants (monomères)
- II Liste des colorants et pigments
- III Liste des solvants (inclus les "energy curing monomers")
- IV Liste des additifs (sans les additifs utilisés lors de la fabrication des pigments)
- V Liste des photoinitiateurs

Les substances des listes I - V ont également été classées en 2 catégories: Partie A substances évaluées et Partie B substances non-évaluées. Ces listes ont été fournies par les producteurs d'encre d'emballage, sous la coordination de l'Association des fabricants d'encre d'emballage européens (EuPIA). Après une première vérification de l'OFSP, les listes ont été fermées le 25 novembre 2009 pour permettre la mise en consultation parmi les offices de la Confédération.

Le nombre élevé de substances (plus de 5'000), ainsi que le délai imposé par l'entrée en vigueur de l'ordonnance n'a pas permis de publier des listes exemptes d'erreurs. Un contrôle ultérieur a montré que celles-ci contenaient encore des inexactitudes (erreur typographique sur le n° CAS, mauvaise classification, nomenclature incohérente,...) et que l'industrie avait oublié d'annoncer certaines substances. Toutes les listes et la classification des substances seront vérifiées prochainement. Les erreurs seront corrigées lors de la prochaine révision de l'annexe 6. L'OFSP assure un contact régulier avec l'EuPIA ainsi qu'avec l'Union suisse des fabricants de vernis et peintures (USVP) pour garantir le succès rapide de ce travail.

Nous publions dans cette lettre d'information une liste des substances concernées par les points cités dans le paragraphe ci-dessus. Cette liste comprend aussi quelques substances qui ont été annoncées à l'OFSP par l'industrie depuis le 25 novembre 2009.

En vous remerciant de l'attention que vous porterez à cette communication, nous vous prions d'agréer, Mesdames, Messieurs, nos salutations distinguées.

Le Responsable de l'Unité de direction Protection des consommateurs

Dr Roland Charrière
