### Health certificate for the export of in vivo derived bovine embryos to Great Britain

<b>Part I: Details of dispatched consignment</b>	I.1. Consignor Name: Address:  Tel.:		I.2. Certificate reference number*:		I.2.a UNN:		
			I.3. Central competent authority: <b>Federal Food Safety and Veterinary Office FSVO</b>				
			I.4. Cantonal competent authority:				
	I.5. Consignee Name: Address:  Postcode: Tel.:		I.6. Person responsible for the consignment in Great Britain, Channel Islands or Isle of Man Name: Address:  Postcode: Tel.:				
	I.7. Country of origin: <b>Switzerland</b> ISO Code: <b>CH</b>		I.8. Region of origin: - ISO Code: -		I.9. Country of destination: ISO Code:		I.10. Region of destination: Code:
	I.11. Place of origin Name: Address:  Postcode: Approval number:			I.12. Place of destination Name: Address:  Postcode:			
	I.13. Place of loading:			I.14. Date of departure:			
	I.15. Means of transport: Aeroplane <input type="checkbox"/> Ship <input type="checkbox"/> Railway wagon <input type="checkbox"/> Road vehicle <input type="checkbox"/> Other <input type="checkbox"/> Identification: Documentary references:			I.16. Entry BCP:  I.17.			
	I.18. Description of commodity:					I.19. Commodity code (HS code): <b>05.11.99.85</b>	
	I.20. Quantity:		I.21.			I.22. Number of packages:	
	I.23. Seal/Container No.:					I.24.	
	I.25. Animal certified for: Artificial reproduction <input checked="" type="checkbox"/>						
	I.26. For transit through Great Britain, Channel Islands and Isle of Man to third country <input type="checkbox"/> Third country: ISO code:				I.27. For import or admission into Great Britain, Channel Islands and Isle of Man <input type="checkbox"/>		
	I.28. Identification of the commodities <sup>1)</sup> :						
Species (scientific name)	Breed	Category	Donor identity	Date of collection	Date of freezing	Approval No. of the team	Quantity
		<b>in vivo derived embryos</b>					

1) If necessary, extra tables can be attached as annex by the consignor and should be approved and stamped by the cantonal competent authority.

II. Sanitary information		Certificate reference number*:	UNN:
<b>Part II: Sanitary information</b>	I, the undersigned official veterinarian of <b>Switzerland</b> , certify that:		
	II.1.	The embryos to be exported:	
	II.1.1.	were collected in the exporting country, which according to official findings:	
	II.1.1.1.	was free from rinderpest during the 12 months immediately prior to their collection;	
	( <sup>1</sup> ) either	<input type="checkbox"/>	[II.1.1.2. was free from foot-and-mouth disease and lumpy skin disease during the 12 months immediately prior to their collection and did not carry out vaccination against foot-and-mouth disease or lumpy skin disease during that period.]
	( <sup>1</sup> ) or	<input type="checkbox"/>	[II.1.1.2. was not free from foot-and-mouth disease or lumpy skin disease during the 12 months immediately prior to their collection or carried out vaccination against foot-and-mouth disease or lumpy skin disease during that period, and:
			– The embryos were not subjected to penetration of the zona pellucida,
			– The embryos were stored under approved conditions for at least 30 days immediately after their collection,
			– The donor females come from holdings on which no animal was vaccinated against foot-and-mouth disease or lumpy skin disease during the 30 days prior to collection and no animal of a susceptible species showed clinical signs of foot-and-mouth disease or lumpy skin disease during the 30 days prior to, and at least the 30 days after, the embryos were collected.]
	II.1.2.	were collected by the embryo collection team ( <sup>2</sup> ) which:	
		– has been approved in accordance with Chapter I of Annex A to Directive 89/556/EEC;	
		– which carried out the collection, processing, storing and transport of the embryos in accordance with Chapter II of Annex A to Directive 89/556/EEC;	
		– is subject to inspection by an official veterinarian at least twice a year.	
II.1.3.	were collected and processed on premises situated in an area of at least 10 km radius centred on them, on which according to official findings there was no occurrence of foot-and-mouth disease, epizootic haemorrhagic disease, vesicular stomatitis, Rift Valley fever, contagious bovine pleuropneumonia or lumpy skin disease in the 30 days immediately prior to their collection and until dispatch to Great Britain, in the case of fresh embryos, or during the 30 days after collection, in the case of embryos subject to a mandatory storage for at least 30 days in accordance with point II.1.1.2.		
II.1.4.	from the time of collection until 30 days thereafter or, in the case of fresh embryos until the day of their dispatch to Great Britain, they were stored on premises situated in an area of at least 10 km radius centred on them, on which according to official findings there was no occurrence of foot-and-mouth disease, vesicular stomatitis, Rift Valley fever, contagious bovine pleuropneumonia or lumpy skin disease.		
II.1.5.	were collected from the donor females, which:		
II.1.5.1.	were located, during the 30 days immediately prior to collection, on premises situated in an area of at least 10 km radius centred on them, on which, according to official findings, there was no occurrence of foot-and-mouth disease, bluetongue, epizootic haemorrhagic disease, vesicular stomatitis, Rift Valley fever, contagious bovine pleuropneumonia or lumpy skin disease;		
II.1.5.2.	showed no clinical signs of disease on the day of collection;		
II.1.5.3.	spent the six months immediately prior to collection within the territory of the exporting country in no more than two herds:		
		– which, according to official findings, were free from tuberculosis during that time.	
		– which, according to official findings, were free from brucellosis during that time,	
		– which were free from enzootic bovine leukosis or in which no bovine animal showed clinical signs of enzootic bovine leukosis during the previous three years,	
		– in which no bovine animal showed clinical signs of Infectious bovine rhinotracheitis/infectious pustular vulvo-vaginitis during the previous 12 months.	
II.1.6.	The embryos to be exported were conceived by artificial insemination using semen coming from semen collection or storage centres approved for the collection, processing and/or storage of semen by the competent authority of a third country or part thereof listed in Annex 1 to Implementing Decision 2011/630/EU (4) or by the competent authority of Great Britain.		
<b>Notes</b>			
References to European Union legislation within this certificate are references to direct EU legislation which has been retained in Great Britain (retained EU law as defined in the European Union (Withdrawal) Act 2018).			
References to Great Britain in this certificate include Channel Islands and Isle of Man.
