

## Schweiz / Suisse / Svizzera / Switzerland

Complementary Attestation to L-2020-03 for the exportation of  
“Emmentaler” cheese to the Republic of Korea

Complementary Attestation to Health Certificate L-2020-03 reference number:

Local competent authority:

The undersigned Officer certifies that:

*The use of propionic acid as a food additive during the manufacturing process of Emmentaler cheese is prohibited in Switzerland.*

*The producing plant has addressed to the local competent authority a written commitment concerning the absence of use of propionic acid as a food additive during the process of production and the absence of use of propionic acid as antifongic for surface treatment. Compliance with this commitment is checked in the producing plant of the cheese during official inspections carried out regularly by the local competent authority.*

*The propionic acid content of the Emmentaler cheese results exclusively from the natural fermentation process.*

*The exported cheese is of free sale in Switzerland and is a product of healthy, honest and commercial quality.*
