

## e-tierversuche: Notes for release 3.9.1 (January 2018)

Process	Process name	Mantis Id	Description	Category	Target persons
P1	Authorization	1260	Name of author of comment and the respective date of commenting are correct even if an application is reopened or resubmitted.	*	Canton & Institutes
GP / P1	General processes & Authorization	1285	When saving a SC, documents taken from parent application keep the original name of the user who has uploaded the SC and the original date of its upload. Newly added documents get the name of the user who uploads them and the current date of uploading.	*	Canton & Institutes
GP / P1	General processes & Authorization	1292	Within SC applications, all uploaded documents remain even if one clicks on <validate> before saving the SC.	*	Canton & Institutes
GP / P1	General processes & Authorization	1293	Even if you interrupt your work with a newly created SC in order to navigate within the main menu, documents of parent application are still taken over properly to the current SC.	*	Canton & Institutes
GP / P1	General processes & Authorization	1294	When FSVO creates supplementary applications in delegated modus, documents of parent application are taken over correctly.	*	FSVO
GP / P1	General processes & Authorization	1295	No matter the type of cantonal logo or the length of authorization number, the pdf of Form. B is shown correctly.	*	Canton & Institutes
